You must register as an authorized vendor with the State of Alabama at www.vendors.alabama.gov. This is a requirement from the State of Alabama Comptroller's Office. Once you register and update all your billing information, it will ensure the prompt receipt of all future payments the State makes to you. This will also give you the option of setting up an EFT option. If you have any questions about your registration, please contact the VSS help desk at 334-353-9000.

After registration is completed, you will be issued a vendor customer number. Please contact Angela Flowers at angela.flowers@abc.alabama.gov with this number. This is used to process all payments.

Thank you,

Angela Flowers
